

IN THE MICHIGAN COURT OF APPEALS

ORDER

Re: **Richard Lee Spangler v Oakland Circuit Judges**
Docket No. **274308**
L.C. No. **1982-052766-FY**

William C. Whitbeck, Chief Judge, acting under MCR 7.203(F)(1) and 7.216(A)(10),
orders:

The complaint for superintending control is DISMISSED for lack of jurisdiction since the action or proceeding below which, when concluded, would not result in an order appealable to this Court if plaintiff's admission that he filed an improper successive motion for relief from judgment under MCR 6.500 *et seq.* is true. MCR 6.502(G)(1) and 7.203(C)(1). If this admission is incorrect, this Court would still lack jurisdiction since appellant had the ability to appeal the June 12, 2006 order so this Court could determine whether his most recent motion for relief from judgment was actually successive. MCR 3.302(D)(2).
